

NIKOS PALAIOLOGOS

Frontend Developer - Thessaloniki, Greece

nikos.p@example.com

SUMMARY

Frontend developer with 2 years of experience building single-page applications. Comfortable owning a feature from Figma handoff through to release. Strongest on React and TypeScript; keen to grow into accessibility and design systems work.

EXPERIENCE

Frontend Developer, Kalliste Digital (2023 - 2025)

Built the customer dashboard in React and TypeScript, replacing a jQuery page that had grown to 4000 lines.

Introduced a component library with Storybook so the three product squads stopped rebuilding the same date picker.

Cut the initial bundle from 1.4MB to 480KB by code-splitting routes and moving charting to a lazily loaded module.

Added Playwright end-to-end tests covering the checkout journey, which caught two regressions before release in the first month.

Worked with the designer to bring the dashboard to WCAG 2.1 AA, fixing focus order, contrast and screen-reader labels.

Junior Developer, Aegean Web (2022 - 2023)

Maintained WordPress and vanilla JavaScript sites for local businesses.

Built a booking widget in plain JavaScript that is still in use.

EDUCATION

BSc Computer Science, Aristotle University of Thessaloniki, 2022

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, HTML, CSS

Frameworks: React, Next.js, Storybook, Playwright, Vitest

Styling: Tailwind, CSS Modules, responsive design

Practices: accessibility (WCAG 2.1), code review, Figma handoff, Git
